Axios

Languages

Spanish

Native/full working proficiency

Education

General Assembly

01/2021 – 04/2021 | Denver, CO

Full-stack software engineering immersive student in an intensive, twelve-week, 450+ hour program.

University of Arizona

08/2012 – 12/2013 | Tucson, AZ

Projects

Trip Tracker

Collaborated with 3 other developers to create a full stack web application using MERN stack. The application allows users to create and store information they will use while traveling.

NBA TeamChat

Developed a full stack web application using PostgreSQL, EJS, Express, and Node.js for fans of the NBA to sign up and check their teams recent results and record. Integrated the BallDontLie API to render new game results and used RESTful routes for users to view, post, and delete chats.

SpeedRacer1000

Constructed a racing game with HTML, CSS, Canvas. and Javascript that can be implemented in any browser. Designed the game for a sleek and unique user experience.

Professional Experience

Sales Representative, *SelectQuote*

08/2019 – 01/2021 | Centennial, CO

Combined company CRM with government websites in order to provide an insurance analysis.

Sales Professional, *Autonation Subaru West*

08/2018 – 07/2019 | Golden, Co

Utilizing product knowledge and market comprehension to provide new customers efficient and competitive pricing structures.

Sales Manager, *Mike Shaw Subaru*

01/2013 – 07/2018 | Thornton, CO

Managed team of 25+ sales representatives to meet 100% of the Subaru of America required sales goal every month. Overhauled the internet department in order to provide sales representatives with more accurate market pricing leading to increased sales.
